

Hi Neighbors!

We have an idea. We'd like to make a "rainbow connection" in our neighborhood. These are strange times and most of us are stuck at home. To show we're in this together, let's make rainbows for each other to hang in our doors or windows. Here's how it works:

- *Surprise!* We've made a rainbow for you to let you know we care about you. Hang it where the rest of your neighbors can see it from the street.
- Now, make a rainbow for another neighbor and secretly drop it at their door with this letter. There are no rules for what you use to make your rainbow; just make sure to give your rainbow & letter to a family that doesn't already have one hanging in their window.
- Our hope is that we'll see rainbows in most or all of our windows soon, and that each one that pops up reminds us we're lucky to have such great neighbors – especially when times are a little tough.

Hang in there, everybody!
